CIVIC MEDIA

The *Civic Media* focus area examines the ways in which interaction design and digital media construct and support civic life. Projects and research in this area include the use of information design for public argument, the development of participatory and co-design methods for community engagement, and new modes of public interaction mediated by technology.

- DESIGN RESEARCH, PUBLIC-SECTOR INTERACTION DESIGN, SOCIAL INNOVATION AND SERVICE DESIGN

MASTERS PROGRAM

The masters program offers a studio and seminar-based curriculum to prepare students for leadership positions as designers, producers, and critical analysts in a changing digital culture.

Ph.D. PROGRAM

The doctoral program provides the theoretical and practical foundations for research and leadership careers in academia and industry, critically engaging with the design, use, and role of digital media in culture.
