Science, Technology, and Society: Core Seminar  
HTS6743/LMC6743/PUBP6743

Preliminary Fall 2015 Syllabus - as of August 18, 2015

Course Meets: Tuesdays 6:05-8:55pm  
Location: Hall 103  
Convener: Anne Pollock, apollock@gatech.edu  
Office Hours: Skiles 360, Mondays 1:30-3 or by appointment

Course Description
Science, Technology and Society (STS) - also called Science and Technology Studies - is an interdisciplinary field of study that seeks to understand how science and technology shape society and culture and how society and culture, in turn, shape the development of science and technology. This course explores key topics, debates, and theoretical perspectives in STS. Featuring guest lectures by faculty from across the Ivan Allen College of Liberal Arts, the seminar introduces students both to a wide range of STS topics and approaches and to faculty who do research in this area. It is also the core course required for the Graduate Certificate in Science, Technology & Society.

Objectives
- To deepen awareness of social, cultural, and epistemic dynamics of science and technology  
- To communicate in sophisticated ways about these issues, especially orally and in writing  
- To become familiar with select foundational texts in the field of STS  
- To explore key themes in STS from diverse disciplinary and interdisciplinary perspectives  
- To be exposed to faculty from across the Ivan Allen College who do STS-related work

Assessment
3 components, equally weighted (each worth 1/3rd of final grade)

1. Class Participation  
This course is designed as a seminar in which active participation from all students is necessary; the benefits of this class come from talking as much as listening. Students are expected to come to class prepared to discuss the readings in depth, and to devote engaged attention to guest lecturers and to classmates’ contributions.

2. Weekly Reading Responses  
Before each class, each student writes an entry responding to the readings for that day on the blog section of T-Square. The weekly responses should be ~500 words each and should be posted 24 hours before class (by Monday at 6pm). They must: (1) demonstrate having done the reading, (2) reflect on how the reading relates to material earlier in the course and/or broader issues, and (3) note comments and questions that you would like to raise in class.

3. Take Away Examination  
Two Questions: one overview, obligatory; one specialized, chosen from many. 1500 words each.

Important Notes on Readings:
- Readings listed are preliminary and subject to change as per the direction of the guest lecturers. Be sure to check T-Square to get any updated reading assignments.
- All readings will available as PDFs or links on T-Square at least two weeks in advance of the class for which they are assigned.

Attendance Policy: Attendance is required.  
ADAPTS accommodation is available for students with disabilities: http://www.adapts.gatech.edu/  
Honor Code: Students must do their own work on blogs and exams. Late work will not be accepted.
Week 1: 8/18
Introduction to the Course

In-class film, “Island of Flowers,” directed by Jorge Furtado (1989)

Week 2: 8/25
The Social Construction of Truth - The Social Construction of Technology
Guest Lecturers: John Krige and Jenny Smith

Week 3: 9/1
Paradigms and Thought Styles
Guest Lecturer: Jen Singh

Week 4: 9/8
Gender and Science
Guest Lecturer: Carol Colatrella

**Week 5: 9/15**

**Actor-Network Theory**

**Guest Lecturer: Yanni Loukissas**

**Week 6: 9/22**

**Artifacts and Politics**

**Guest Lecturer: Nassim JafariNaimi**

Additional readings TBD

**Week 7: 9/29**

**Philosophy of Technology**

**Guest Lecturer: Michael Hoffmann**

**Week 8: 10/6**

**Justice**

**Guest Lecturer: Susan Cozzens**

Week 9 – Midterm Break – No Class

Week 10: 10/20
Design
Guest Lecturer: Carl DiSalvo

Week 11: 10/27
Technology, Innovation and Political Economy
Guest Lecturer: Steve Usselman

Nathan Rosenberg, “Problem’s in the Economist’s Conceptualization of Technological Change,” in his *Perspectives on Technology*, Chapter 4.

**Week 12: 11/3**
**Topic:** Disability and Accommodation
**Guest Lecturer:** Nathan Moon

Readings TBD

**Week 13: 11/10**
**Energy in Economic History**
**Guest Lecturer:** Juan Moreno-Cruz

http://www.nber.org/papers/w18908

**Week 14: 11/17**
**Values, Interests, and Commercialization in Academic Research**
**Guest Lecturer:** Justin Biddle

Justin Biddle and Rebecca Kukla, TBD
Week 15: 11/24
Science Fiction as STS
Guest Lecturer: Lisa Yaszek

- Istvan Csikery-Ronay, Jr. “Imaginary Science.” *The Seven Beauties of Science Fiction.*
- Donna Haraway, “Cyborg Manifesto.”
- Short stories TBD

Week 16: 12/1: Wrap-up class

Take-home Exam due Tuesday, December 8, at 6pm
