

## **LCC 6650 eTV Project Studio**

Tuesdays 4-6 (and project meetings TBA)  
TSRB 322 (eTV Lab)

**Prof. Janet Murray**

**TSRB 320A**

**Office hours Monday 4-6**

[Janet.murray@lmc.gatech.edu](mailto:Janet.murray@lmc.gatech.edu)

Lab Manager GRA

Pedro Silva pedrosilva@gatech.edu

### **General Course Description**

This course explores the design possibilities at the intersection of complex storytelling, television, and interactivity. Students investigate the design space by creating surveys, doing user testing, and creating prototypes using specific television content. Prototypes may run on existing technologies, such as tablet second screens, or they may involve experimental software and/or hardware environments of our own creation. The fundamental question this Project Studio addresses is how computational technologies can allow us to create, experience, and share more complex forms of storytelling.

### **Learning Outcomes**

#### **M.S. TOP LEVEL**

Demonstrate the ability to devise, design, create, and assess prototypical digital media artifacts, services, or environments and to contextualize them within recognized traditions of practice.

#### **M. S. SECONDARY LEVEL**

##### **Knowledge**

- Formally identify digital media design elements, such as interface conventions, processing strategies, and information structures.

##### **Comprehension**

- Ability to explain, give examples of, and defend one's use of formal digital media design terminology

##### **Application**

- Demonstrate use of digital media to create prototypes
- Demonstrate good time management skills
- Demonstrate ability to set realistic goals

### Analysis

- Can develop interactive media artifacts

### Synthesis

- Can design and create digital artifacts that create the experience of agency for the interactor.
- Can design and create digital artifacts that segment and tag media to create meaningful organizational units.
- Can communicate, coordinate, and work productively as a team member.

### Evaluation of Works

- Can justify the design choices in their works
- Can formulate and test design hypotheses

### PHD Learning Objectives

all the items in the MS Learning Objectives above PLUS

### PhD TOP LEVEL

- Students can identify and analyze a domain within the field digital media and identify areas for original contribution as well as methods to pursue these contributions.
- Students can formulate original interpretations and design original prototypes that reflect an understanding of the humanistic context of digital media.

### PhD SECONDARY LEVEL

#### Knowledge

- Identify the historical and cultural roots of digital media

#### Synthesis

- Demonstrate ability to conduct original research in support of designing new genres and forms of digital media
- Demonstrate ability to conduct original research in support of assessing and / or critiquing new genres and forms of digital media

(Also the relevant TV show(s) and related articles, depending on which one(s) we make the subject of our research.)

(Other essays will be added, reflecting the direction of our investigation)

### **Grading**

Students will be given specific project tasks and responsibilities, such as coding, visual design, project management, and will report weekly on progress. Students will formally assess themselves and one another on their contribution to collaborative projects.

Project Development 60% - 30% for collective accomplishment and 30% for individual contribution as witnessed by instructor, documented by the student, and reported by teammates.

Other Analytical Writing and Design Contributions 20% (including weekly responses to readings)

Oral Presentation/Class Participation 20% (includes demo-ing prototypes and presenting design proposals and summaries of readings in class)

### **Schedule (readings for each week will be posted to the eTV tsquare site)**

Details of assignments will be on etv tsquare wiki and all assignments and project documentation should be handed in there.

**Weeks 1-2 Interactive Emmy Submissions** as focus for discussion of current practices and design goals (written assignments week 2: which of the 5 nominees should receive the award and what are your criteria?)

**Weeks 3-4 Review of eTV; preliminary project proposals** submitted and assessed; Readings report assignments made with weekly reporting schedule.

**Weeks 5-6 First Mockups and Preliminary Schedule with Milestones;**

**Weeks 7-8 First Milestone, demonstration of v.1 prototype or results from v.1 user testing**

Midterm written assessments provided, with input from team members.

**Weeks 9-10 Second Milestone, demonstration of v. 2 prototype or results from v.2 user testing**

**Weeks 11-12 Rough draft of paper if user testing; v. 3 of prototype**

**Weeks 13-14 Revised draft of paper; v. 4 of prototype ready for testing**

**Week 15-16 Final Projects Due** Demo and preliminary user testing of prototype; final draft of paper Posters prepared for papers and prototypes, presented orally; video prepared for prototype; web page added to eTV site

**General Policies**

Students are expected to indicate the source and authorship of any work not original to them.

Students are expected to come to class prepared and actively respond to presentations by the instructor and fellow students. Students are encouraged to bring their laptops to class, and are always welcome to look up information related to the discussion during class.

All students will have access to the eTV in TSRB 322 and are expected to abide by the rules of that lab, including never propping open doors or leaving the room empty and unlocked.

**There is zero tolerance for discrimination or harassment on any basis,** including but not limited to race, color, religion, sex, national origin, age, disability, sexual orientation, gender identity, or veteran status. Georgia Tech is committed to providing its staff, faculty, and students the opportunity to pursue excellence in their academic and professional endeavors. This opportunity can exist only when each member of our community is assured an atmosphere of mutual respect. Georgia Tech's full anti-harassment policy is online here: <http://www.policylibrary.gatech.edu/anti-harassment-policy>

**Students in need of Learning Accommodations:** Any student who feels that they may need an accommodation for any sort of disability, please speak to me after class or come see me in my office hours so we can discuss alternative strategies. Georgia Tech support services are available through the Office of

Disability Services of the Dean of Students Office, as described here:  
<http://disabilityservices.gatech.edu>.

**Attendance Policy** Students are expected to attend every class meeting and to participate actively in the design discussion. Students are expected to fulfill the development schedule as developed by the team, and to make their work available in a timely manner that supports the overall team effort
