

The fast track admissions process allows students to by pass the GRE and waive one of the letter of recommendation for the program. To be eligible for the program the students must:

- The applicant must have earned the B.S. in Computational Media from Georgia Tech with at least a 3.4 overall grade point average (not just in the major).
- The applicant must have graduated within the past two years.
- The applicant must complete the standard online Georgia Tech application for admission to graduate school and pay the appropriate fee.
- The applicant must submit two letters of recommendation from a Georgia Tech LMC professor, which attests to the applicant's potential to do graduate work.
- Applicants do not need GRE scores if they meet the above requirements.
- A statement of purpose as part of the online application.
- An online portfolio.
- For your last recommendation please enter Fast Track for the name, Digital Media for the company and fasttrack@gatech for the e-mail address.

Questions on how to apply can be e-mailed to dgs@lmc.gatech.edu
